Abilashrayam Senior Citizen Home

Our Senior Citizens at **Abilashrayam Senior Citizen Home** have shown a very good response to the new developments in the home. They have started to take their own baths and brush their teeth on a daily basis which was never followed. This is a huge development and we are looking forward to the senior citizens gaining more independence.

Abilashrayam Vidya Daanam Program

The distribution of school kits to the underprivileged children of rural areas has been a great success and has bought many children back to school. This has inspired us to mark a target of supporting **5000** children in both Karnataka and Andhrapradesh for the next academic year.

Abilashrayam Anna Daanam Program

"**Abilashrayam Midday Meal Program**" is supporting close to 50 children by providing them with food in the afternoon. The project emphasis is to provide food in the afternoon to the underprivileged children going to Government school.

We have started this as a pilot project in order to motivate the children to go to school.

Abilashrayam Centre For Learning

We have identified a need for a residential school for underprivileged children with families below the poverty line. The need transpired when children were no longer able to attend school after fifth standard due to the location of their secondary school. The school is located fifteen kilometers outside of the area. This has resulted in a barrier in their education which is rarely resolved. A risk of child labor is often a result of this barrier.
